THE BROW COLLECTION

BROW TAMER POMADE : SRP \$16

A clear brow wax, that's perfect to set your brows in place, and make brow shadow waterproof. Our Clear Brow Tamer is perfect for keeping thicker, coarser brow hairs in place. Especially good for those too long brows that seem to have a mind of their own.

COLORS

Clear

HOW TO USE:

Apply with clean fingers or a clean straight or slanted tip angle brush through the brows to mold and groom the brow either before or after applying your brow shadow.

MULTI-TASK:

- * Apply before brow shadow to create a stronger eyebrow shade.
- * Use after brow color to keep brow pencil color in place and create a softer brow.
- * Use alone to groom and shape brows.
- * Is gender friendly, for both men and women.

ELKE'S BROW TIPS:

For those who prefer shadows to pencils, you can create a perfect line by applying brow wax first with your angle brush, and then applying your shadow over. A perfect line, every time that stays put and is water-resistant.
